Mr. Theodore Anderson

Dedication

We the seniors of the 1973 graduating class would like to dedicate our yearbook to a person of outstanding character.

This person started his teaching career at Falconer Central High School with us and he was overheard saying, "The class of this year's seniors is my class." We think so too.

We would proudly like to present this book to Mr. Theodore Anderson.

Keep The Faith

This year the 1973 yearbook staff also wishes to dedicate the Falconaire to an outstanding belief.

A belief that everybody needs. Without this belief we are nothing, but with this belief we are everything. This belief is needed for anything to exist. We all could improve on this belief.

KEEP THE FAITH! Think about this statement. Why do we need it? Why is it that without it we are nothing but with it we are everything. For the simple reason that without it there is nothing to look forward to, no confidence, and everything will fall.

We say everybody needs to improve his faith because how many people are losing faith in their country, their government, their school, and their God.

This is why we all need faith, so we will not fall. With this we can conquer all.

Let's keep the Faith!

by Bea Wilson

Staff

To the Class of 1973:

I would like to take this opportunity to express my best wishes to the class and to the students who will soon be taking their place as citizens in our community and other areas throughout the world.

Considerable material is now being presented to the effect that college will not always be a necessity to assure employment in life, and we are now finding many new areas which are opening to individuals with some type of training. There are those students who are eager to obtain the necessary skills to take their place in these new fields of endeavor. However, we must still always remember that education is one of our basic needs. And in order to enter into any skill or college-trained professional function, a good, general education beginning with a high school diploma is an absolute necessity.

I am confident that the Falconer Central School District is providing each student with the necessary background to follow his chosen route in life. Today, we hear about career education, which is being correlated with the regular academic and vocational areas from grades K through 12 and it is hoped that the schools, by instituting programs of this type, can continually keep abreast of the needs of the student in order to insure their preparation for the world of work and the requirements of our society.

Good luck for the future, and may you continue to strive for the position of life which you feel will be satisfying to your own desire of self-development!

James H. Gassman
Supervising Principal

To the Senior Class:

Somehow, the whole is not equal to the sum of its parts.

When you read this someday ages hence, you will know that school was a real part of your life, because knowledge is transferable. You may glimpse that some of those who helped mold you did not study for years to proclaim merely that "be" is a copulative verb, or to illustrate how to do a footnote, but to give direction to your steps and meaning to confusing words.

You have just finished, and you have no more than begun. Behind you is a lifetime . . . before you, the years that will change the world.

The people who have given you of their lives have included some who are an example of how to live. If you look at life now with understanding and insight — if your perspective has widened — your memories of school will be clearer than a cheer; your character will be tougher than your most difficult assignment; your joys deeper than fleeting moments of success. That nebulous something that someone has called spirit will slip into the pattern of your life. The future, whatever its shape — college, marriage, job — will be the continuation of what has been done, and given you to pattern and to pass on again.

In our town, generosity finds its expression in the dedication of those who have given unflinchingly to you. As you pattern the new styles and return that dedication to those who will come under your influence, may your victories be humble and your defeats graceful. May you always continue that growth toward the fullness of manhood time gives to those whose dedication to life is sincere.

Sincerely,

Donald S. Conway
High School Principal

TO THE CLASS OF 1973:

Congratulations!

I hope your years at Falconer Central High School have been both pleasant and rewarding. The administration and faculty have worked diligently in preparing you for the future so that each of you may become successful in future years. Much of this success will now depend upon you.

Remember — "Many a failure never gets his head above water because he never sticks his neck out."

Sincerely,

Ward E. Fox

Jennifer Adams

Foreign Exchange Student

Jenny Adams, daughter of Mr. and Mrs. Les Adams of Maitland, South Australia, was our foreign exchange student from the end of 1972 to the beginning of the school year in 1973.

Now that Jenny has left she will be sadly missed. Jenny was well liked not only by this years seniors but by everyone that came to know her. We hope Jenny enjoyed being here as much as we enjoyed having her.

Here Jenny is participating in English class

And now a word from our sponsor.

Autographs

How will they make it without me?

Good luck
 as a 9th grader
 take care of your-
 self! don't ever forget
 Strong's math class and
 don't forget me.
